

A Note From The Desk Of Greg Jorgensen For All Building Managers

Dear MR Owners.

Having owned and operated management rights in the past, I understand the importance of adding to your bottom line!

I heard about these guys offering payment to any and all Building Managers who utilise their tenancy transfer services from a Seller of mine earlier this year.

Our aim here at MRBA is to not only to successfully market and sell management rights businesses but to assist our and any operator to grow their business without adding a hundred hours of extra time to their week!

This company seems to take the stress out of the tenancy transition and you get a financial benefit.

Of course, if you try this and have an experience that is not great in any way, please let me and Move Me In know.

I am advised that if your complex has an embedded electricity you're not going to be able to take advantage of these deals.

BTW no one at MRBA benefits from Move Me In - not even a Pizza! We're doing this for you to potentially grow your business as every dollar from this goes straight to the bottom line, as I see it.

P.S. For any clients with over 100 under management I have the ability to offer you a \$200 Visa card as a thank you.

I know it's not much but it's something for us to show our appreciation.

All the best for 2021 and may COVID go away and let us all go back to life as we knew it.

Greg Jorgensen, Tracie Saks, Sim Lai
